

Life-size Lumatone Mock-up

Lumatone-keyboard-images(

5-octave-width = 1080 pixels, for 33 inches:

72 dpi: need 220% print)

libreoffice is buggy for such ; use gimp ;

adjust page margins to 0.50 in;

10 in (landscape) @ 72 dpi = 720 ;

6.375 inches per octave (12 notes, actually 7 white),

12.75 in = 2va,

10 in = 11 whole white keys ; c thru f ;

then g thru c (3 oct total) ;

standard white key height = 5.25 in = 378 px ;

each page = 720 x 540 ;
